**VOLUME: 45 GALLONS** 

ROCKER: 7.5" BOW, 7.5" STERN

WEIGHT: 27 lbs

The Space cadet is the next generation in playboats for liquidlogic, yet fits into our current hot line of short boats. The Space cadet is the shortest playboat to date for us, which makes it even easier to throw around and get into the air. It fits paddlers in the in-bewteen weight range of 150-190. We maximized the volume in this 5'11' boat giving in lots of foot room and plenty of space around the knees to lift yourself out of the water and into whatever cool contortion you can imagine. We also increased the spin surface which makes it looser and gives a larger platform for launching wave moves. This is where it's going; more fun, more comfort, easier to paddle.
